

This experimental, transformative, and powerful event is an exclusive opportunity to work with some of the best magicians and shamens in the Midwest in a post-modern shamanic party of joy and spirit. *Hands On Chaos Magic* author and **Hougan Asogwe Andrieh Vitimus** leads a new way to connect to spirit. **Critical Mass** breaks down the barriers between presenters and participants by encouraging all participants to bring supplies for their own rituals to perform at their own table, on the dance floor, or even in their own minds while providing a mutual shared safe space of high energy so all the magic just works better. There is no audience, only participants. In Joy and Play, the magic will just work. Of course, this will be a party as well with quality trance inducing music, light and sound machines, and great food. While tapping into the energy of the new, world renown author **Andrieh Vitimus**, **The Order of Avalon**, **PrismaticVortex.com**, members of the **Six Crows Esoteric School**, and many more will provide an opportunity and framework for you to transform your life while still having a party.

New Years Eve Adrian, Michigan

The class and event together is \$50
(\$25 for each)

By Invitation Only

At 7 pm, Andrieh will lead a workshop on *5 Minute Dance Floor Invocations and Enchantments*. This post-modern shamanic style of magic will help transform lives regardless of where the magic happens. Using techniques from *Hands On Chaos Magic*, NLP, and Hypnoenergetics, Andrieh will train the participants in some methods on that usually get strong results from rituals later in the night. Many of you have heard, know from experience or understand how powerful Andrieh's rituals are. Learn from one the best, and then stay for the party. Experience the empowerment for only a \$25 investment.

At 8pm, the opening ceremonies and **Critical Mass** will start. Then the cascade of magical operations, rituals and partying will begin. To facilitate and for safety reasons, there will be an acting priest(ess) (and there will be different priest(ess) at different times) available for counseling, grounding or banishing at all times in the event. As well, these experienced priests and priestesses will be available for divinations, healings, and on the spot spell work to improve your life in exchange for their reasonable rates.

In how many ways will this be completely awesome? In how many ways can you already feel your life transforming as you make the decision to come to **Critical Mass**?

**Critical Mass of magic
will transform, empower,
and energize**
